Ambulance Stretcher Trolley Bed Model: WSX-AC-3

Product Description

WSX-AC-3 series ambulance stretcher trolley bed plays an essential role in the transportation of patients. It provides a safe and comfortable means of transport for patients who are unable to move on their own or require additional medical attention. Its safe and comfortable design, ease of maneuverability, and hygienic qualities make it an essential tool for paramedics and healthcare professionals. It allows paramedics to move patients from the scene of an accident to the ambulance without the risk of further injuries. Moreover, the smooth rolling casters make it easy for paramedics to maneuver the stretcher through narrow hallways and tight spaces.

WSX-AC-3 ambulance stretcher trolley is also designed with patient comfort in mind. It is equipped with adjustable head and footrests, padded surfaces, and safety straps to Xi'an Landcom Digital Medical Science & Technology Co., Ltd.

ensure that patients remain secure and comfortable during transport. This feature is especially important for patients who may be experiencing pain or discomfort. Furthermore, the ambulance trolley bed is made from high-quality steel materials that are easy to clean and sanitize. This ensures that the trolley remains hygienic and reduces the risk of infection transmission between patients.
